

Grade 2 Year At A Glance

Life Preparatory School is passionate about equipping our students with the skills needed to read, write, and to apply God's word into our everyday life. We have a curriculum that builds a core foundation in reading, vocabulary, word work, writing, and grammar.

BIBLE

Learning about God, his love, faithfulness, and miracles is fun and easy with our Bible Curriculum. Children learn how to apply God's word to their lives. They memorize scripture verses, and learn about stories in the Bible that will stick with them for as long as they can remember.

LANGUAGE ARTS

Language is God's gift to man for useful and effective communication. The study of Language is a valuable aid to help Second grade students express themselves clearly and creatively as they communicate with others. This practice includes phonics classwork each day as new concepts are introduced. Dictation practice is given each day and directed by the teacher. Seat work each day will help students to learn to become independent workers, reviewing concepts to be fresh in their minds.

MATH

Mathematics contains a variety of exercises involving new material taught in each lesson. Students will grow with confidence as they advance in addition, subtraction, multiplication and division. Students will work each day on independent seat work as well as classwork which will help enhance their communication skills and teach teamwork thus preparing them for the work force later in life.

SCIENCE & SOCIAL STUDIES

Our History books provided are an exciting introduction to the background of American History. Second Grade students will learn about the beginning of America's patriotic holidays and songs. The purpose of history class is to encourage students' interest in this country through a study of these important holidays, songs, and people.

Science in Second Grade is discovering the wonders of God's creation. Science is learning "all things bright and beautiful, all creatures great and small." The purpose of our science class is to stimulate the students' interest in science through a study of the wonders of creation.

TECHNOLOGY, ART, MUSIC, SPANISH, PE

Above are all extra curricular courses that each student will be involved in throughout the week.

HIGHLIGHTS

Sharpen your pencils, here comes cursive writing! Writing habits formed during Second Grade will greatly influence the students' writing skills throughout their lives. Writing class will be used to teach and reinforce the formation of cursive letters and creative writing. Fun events are planned throughout the year such as, Grandparents Day, Johnny Appleseed Day, Dr. Seuss's birthday, & 100th day of school. Each of these days is special with dressing up, games, and activities.

Outside play time is very important for the students to release energy and get a change of scenery. Each class gets two 15 minute breaks outside per day. We have a wonderful playground that the kids love to play on.
