

Kindergarten K5 Year At A Glance

Life Preparatory School is passionate about equipping our students with the skills needed to read, write, and to apply God's word into our everyday life. We have a curriculum that builds a core foundation in reading, vocabulary, word work, writing, and grammar.

BIBLE

Learning about God, his love, faithfulness, and miracles is fun and easy with our Bible Curriculum. Children learn how to apply God's word to their lives. They memorize scripture verses, and learn about stories in the Bible that will stick with them for as long as they can remember. They will be tested weekly on stories in the Bible.

LANGUAGE ARTS

Under this category students learn Phonics, Reading, and Writing. Our students will enjoy carefully sequenced activities that will teach them their vowels, consonants, blends, one- and two-vowel words, and special sounds. Abeka phonics has produced thousands of successful readers for more than half a century! Building on this foundation of phonics, by the end of first semester your students will actually be reading little readers! From tracing the letters to writing them on their own, your students will be taught to neatly print their letters as they carefully form each "ball" and "stick." The "houses" with upstairs, downstairs, and basement guide them in the size and placement of each letter. As they carefully form their letters, they will learn the character qualities of neatness and caring about their work. They will soon be able to write sentences on their own. Students will learn to love reading and get excited to read to their classmates.

MATH

We will memorize addition facts up through the number 10 and will be able to identify what numbers come before and after any number from 1 to 100. They will also begin to learn about subtraction, complete one-step story problems with addition, and recognize the largest and smallest numbers from a set of numbers. Students will learn how to count by 2's, 5's, and 10's. They will learn to tell time and count with money.

SCIENCE & SOCIAL STUDIES

Each week we take students on a trip around the world learning about different Countries. They learn about Community helpers with poster visuals and activities that keep them engaged.

ART, MUSIC, PE

Above are all extra curricular courses that each student will be involved in throughout the week.

HIGHLIGHTS

Students learn many skills including how to read and write, memorizing Bible verses, holding a pencil correctly, making friends, problem solving, learning to tell time, and development skills..

Fun events are planned throughout the year such as, Grandparents Day, Johnny Appleseed Day, Dr. Seuss's birthday, & 100th day of school. Each of these days is special with dressing up, games, and activities.

Outside play time is very important for the students to release energy and get a change of scenery. Each class gets two 15 minute breaks outside per day. We have a wonderful playground that the kids love to play on.
